## Sistema 84 con anta Kea

Il Sistema84 è caratterizzato dall'utilizzo di ante in legno massello spessore 22m. L'anta kea si presenta come una superficie tridimensionale animata dalla cornice esterna (in misure personalizzabili) e l'opzione interno a crociera con vetro satinato. Peculiarità è la preziosa laccatura a 5 mani direttamente sulla fiamma del legno massello. Kea propone inoltre la maniglia integrata nella cornice.

## Struttura di base

La struttura della cucina passa dalla profondità standard di 60 cm a ben 65 cm. Tale soluzione aumenta la capienza complessiva della base e la profondità del piano, quindi la superficie lavoro. Questa soluzione unita allo zoccolo da 6 cm e la struttura H 84 cm ridefinisce i volumi in cucina.
